February 4, 2015

Dear Sir or Madam:

It is my pleasure to write this letter in support of Ms. Charlotte Tadych's application for teacher licensure in the state of Wisconsin. I have known Ms. Tadych for more than three years as a student in my economics courses and more recently as a student employee with our Lakeland College Center for Economic Education. This center, affiliated with the non-profit group *EconomicsWisconsin*, is dedicated to helping Wisconsin K-12 teachers better teach economics and personal finance through curriculum development and teacher professional development.

Ms. Tadych has been an excellent student in all of the economics courses she has taken with me. These include the challenging Intermediate Macroeconomics and Money and Banking. Charlotte is clearly a gifted student and her content knowledge in economics is excellent—not only for an education major, but she frequently outperforms the students specializing in business and economics. Her work with the Center for Economic Education has introduced her to national standards-based curriculum in economics and personal finance, professional development opportunities for teachers in this area and research into effective economic and personal finance education for K-12 schools.

It is clear to me that Ms. Tadych has prepared herself well to be an excellent teacher. While others can more completely comment on her work in the classroom, it is clear to me that her content knowledge in economics and personal finance is superb.

Sincerely,

A handwritten signature in blue ink, appearing to read "M. Scott Niederjohn".

M. Scott Niederjohn, Ph.D.
